**Truly exceptional
kitchens deserve truly
exceptional appliances.**

That's why we created the HydroTap G4, the world's most advanced drinking water appliance.

The HydroTap is unique, delivering boiling, chilled, filtered and sparkling water from one iconic tap. Recognised the world over, Zip HydroTaps are the first and last word in versatility, style and cutting-edge technology, as well as being an essential cooking aid for the contemporary kitchen.

ZIP IT.

The Zip® HydroTap® G4 Collection

For exceptional kitchens

The iconic name in instant drinking water appliances since 1962, Zip has led the world in creating exceptional products for over half a century.

Since its introduction over 10 years ago, Zip HydroTap has earned a reputation for unparalleled quality. The new G4 is so reliable that we've confidently extended our warranty to 5 years*.

Supported by the largest national company-owned installation and service team in our industry, you will enjoy peace of mind when you choose Zip HydroTap G4.

* Appliance warranty 24 months. Boiling tank warranty 60 months. See page 18 for more information.

WHY ZIP?

HISTORY

Since 1962

Since its inception in Australia in 1962, Zip has been producing instant boiling water systems for both domestic and commercial use. Now a multinational company, with the taps being sold in over 70 countries, Zip's iconic red and white branding has become synonymous with instant boiling water.

A wholly owned subsidiary was formed in 1991 to handle UK distribution, with customer service offices established in London, Birmingham, Manchester and Norfolk.

Today, Zip's wide range of products can be found in kitchens all over the UK, ensuring convenient boiled, chilled and sparkling water at any time of the day or night.

TECHNOLOGY

Designed around you

Our HydroTaps feature the very latest technology, meaning they do more than offer a convenient cup of tea or cold drink. The integrated new Zip 0.2-micron filtration system removes dirt and contaminants up to 25 times finer than previous models. Even the taste and odour of chlorine is removed, but fluoride is retained, so the whole family can enjoy crystal clear, great tasting water.

DESIGN

Iconic for timelessness

Since the development of the Zip HydroTap, its iconic robust design and function has stood testament to the Zip values of innovation and sustainability. Found in prestigious homes and apartments across the world, the HydroTap will become a unique statement for your home and kitchen and an essential tool for your busy lifestyle.

IN THE UK OVER EIGHT MILLION CUPS OF TEA AND COFFEE ARE MADE EACH DAY USING ZIP PRODUCTS.

Shown with optional front and drip tray.
Accessory No. ZT008.

The Zip HydroTap® G4

The new Zip HydroTap G4 is the essential appliance that every kitchen needs. Famous for its stylish look, this tap provides safe and reliable filtered drinking water while being exceptionally energy efficient and environmentally friendly. Giving you a healthy lift by using the amazing Zip 0.2-micron filtration system, your whole family can enjoy chilled, sparkling or boiling water all from one tap. The HydroTap G4 serves your kitchen requirements and saves time, money and energy every day.

Choose the features that suit your needs perfectly with the HydroTap G4.

Features

Instant Boiling Water

Boiling filtered water, instantly, for tea, coffee and cooking. No more waiting for the kettle to boil. Zip HydroTap makes it all so simple.

Instant Chilled Water

Crystal clear, great-tasting chilled filtered drinking water, always on tap.

Sparkling Water

Sparkling chilled filtered water at a fraction of the cost of bottled water.

Zip Filtration

0.2-micron filter brings you what is arguably the most advanced and most practical filtration system available anywhere in the world today.

Zip Power-Pulse

Electronic technology controls the set boiling temperature within 0.2°C and eliminates overboil.

Safety Features

Can be set to finger-thumb safety operation for boiling water access or boiling isolation mode for increased safety.

The Zip HydroTap® G4

Choose from six types of models.

For exceptional kitchens

The Zip HydroTap® G4 **All-in-One**

The Zip HydroTap G4® All-in-One

Zip HydroTap G4 All-in-One fuses the very latest filtered water technology with striking design to bring you a product that will change the way you cook and make drinks. The All-in-One allows you to change the variations of the tap, enabling you to choose a combination that suits your kitchen needs. The G4 All-in-One can serve as a hot and cold water mixer tap whilst also delivering boiling, chilled and sparkling filtered drinking water instantly. With a single 120-degree swivel tap, this All-in-One is the only single solution tap your kitchen will ever need.

Features

Instant Boiling Water

Boiling filtered water, instantly, for tea, coffee and cooking. No more waiting for the kettle to boil. Zip HydroTap makes it all so simple.

Instant Chilled Water

Crystal clear, great-tasting chilled filtered drinking water, always on tap.

Sparkling Water

Sparkling chilled filtered water at a fraction of the cost of bottled water.

Zip Filtration

0.2-micron filter brings you what is arguably the most advanced and most practical filtration system available anywhere in the world today.

Zip Power-Pulse

Electronic technology controls the set boiling temperature within 0.2°C and eliminates overboil.

Safety Features

Can be set to finger-thumb safety operation for boiling water access or boiling isolation mode for increased safety.

Hot and cold water

As well as providing boiling, chilled and sparkling filtered water the Zip All-in-One provides hot and cold water from your mains supply.

The Zip HydroTap G4® All-in-One

Choose from four types of models based on your incoming water supply.

MAINS MODELS

These models connect to an incoming hot and cold water supply.

| | DOMSAN4 | DOMAN4 |
|-----------------|-----------------|-----------------|
| Boiling | • | • |

| Replacement filter | FL1100 |

The tap to suit all your water requirements, the All-in-One includes features such as an energy saving light sensor and swivel-action tap, for installation over one or two bowl sinks.

The All-in-One in action.

THE ONLY SINGLE SOLUTION TAP YOUR KITCHEN WILL EVER NEED.

PRACTICALITIES

**The HydroTap:
see it, want it,
use it, love it!**

TIME SAVING

For your busy lifestyle

We often don't have precious minutes to wait for the kettle to boil. We want instant boiling water as well as the pure taste of filtered chilled water – and now you can have it, all at the touch of a button. For filling bottles or carafes, our special Free-Flow™ technology allows an endless stream of cold, filtered water – even after the chilled water capacity is exceeded.

If you and your family enjoy sparkling drinks, the Zip HydroTap now also offers sparkling water in an instant. It costs far less than bottled sparkling water – and promotes healthier drinking because it is always on-hand.

EASY TO USE

Designed around you

Filtered drinking water on tap – that's really all there is to it! Boiling, chilled or sparkling, the HydroTap does it all. Instantly. Say goodbye to costly bottled water, with the HydroTap, you'll never have to buy or store it ever again.

HEALTHY

Crystal clear filtered water

The new Zip 0.2-micron filters ensure you have access to the purest water possible. Reducing the taste of chlorine and filtering impurities 25 times finer than ever before, the HydroTap filter technology is undoubtedly the most advanced filtration system available.

The filter cartridges are stored out of sight as part of the under-sink command centre. You don't even have to remember to change the filters – the handy filter change light will flash to alert you that a change is due approximately every 12 months.

ENERGY SAVING

Advanced G4 technology

Zip HydroTaps have a range of energy saving features including low-energy lights to signal boiling, chilled water is ready, or a filter change is due. A hidden light sensor also sends the appliance to sleep, to conserve energy when the room goes dark. Sleep mode also powers off after 2 hours of non-use.

In addition a 24/7 on/off timer, allowing power to be turned off, automatically, for weekday or weekend periods.

ACCESSIBLE

Making it easy for everyone

A number of our HydroTap G4 models* can be adapted for users with limited mobility or impaired vision. For example, we can add oversize levers or Braille lever-covers.

*Excludes Miniboil.

UNDER-SINK UNIT

COMPACT

And easy to install

Our under-sink units for the G4 range are more compact than ever, and feature connection points at the rear to make neat installation more simple. A front access door makes changing the filtration cartridge as simple and quick as replacing a lightbulb.

- Advanced insulation and electronics technology reduces standby energy consumption by up to 55 percent over earlier Zip models of similar capacity.
- Auto-calibrates to boiling point upon installation, regularly re-calibrates and optimises performance.
- Simple pin-code-protected touch-screen puts you in total control of each appliance.
- Adjustments include temperature, dispensing time, safety settings, energy-saving settings.
- Continuous auto-diagnostics system monitors performance and provides total history on demand.

- Multiple filter life settings, with precise litre monitoring, to optimise filter replacement timing.
- Added peace of mind features include overload protection, temperature monitoring, internal leak detection, plus an internal pressure limiting valve.

Our under-sink Zip Command-Centre units are more compact than ever, and feature connection points at the rear to make neat installation more simple.

Miniboil warranty is 12 months.

Neat and compact, the Miniboil is perfect for smaller spaces while still providing instant boiling water and ambient temperature filtered water.

The under-sink control cabinet has an externally mounted filter cartridge so it is remarkably small and can easily fit into small under-sink cupboards.

THE SUPER COMPACT ZIP MINIBOIL

SERVICING

For ongoing peace of mind, we provide prompt service in any location thanks to our team of national fully trained, directly employed service engineers.

As well as experiencing a fantastic product that will enhance your lifestyle, we want you to experience outstanding service. Getting to speak to someone at Zip is quick and easy – you'll never have to go through an overseas call centre or talk to an automated service. Our dedicated team is always on hand to answer any queries, and, should a call-out be required, we'll work with you to find a convenient time for a member of our support team to visit. Our engineers, employed by Zip, are fully trained in our products and aim to fix any issues on the spot.

While we have every confidence that your Zip product will offer years of low-maintenance drinking water, there are some important things that need doing to ensure this.

Our boiling, chilled and sparkling products are second-to-none when it comes to delivering pure filtered water, and this is thanks to our advanced filtration system. At 0.2-microns, our products filter out an incredibly high level of impurities, and with this in mind, we recommend regular replacement of the filter.

For convenience and peace of mind, our HydroCare package means you don't have to worry about the yearly filter replacement – we will do it for you! In addition, we sanitise the system as well as give it a full health check. For just a little more than you would pay to change the Zip filter yourself, you can have a fully-trained Zip engineer attend once a year to carry this out. You can also rest assured that should anything else need doing to keep your Zip product flowing, it will be covered in the HydroCare agreement with no hidden charges. Full details available upon request.

We have a large team of fully-trained Zip field support staff covering the UK, with over 58 engineers.

We believe our response times are the best in the industry, with same-day* call-out in London if you call us before midday.

*Response times for other areas will vary.

FEEDBACK

Please help us to provide the best service possible by providing your feedback. Our customer service team is waiting to hear from you, so please call 0845 6 005 005 or email service@zipheaters.co.uk

YOUR WARRANTY

For peace of mind

Zip HydroTap G4 models featured in this brochure are covered by a comprehensive full parts and labour warranty for 24 months from date of purchase. A further 36 months boiling tank warranty is included, provided any service required is carried out by a Zip-trained service provider and that water filter cartridge replacements are made at recommended intervals. Zip Miniboil models are covered by a 12 month warranty. Details are supplied with each appliance and can be viewed at www.nowzipit.co.uk.

COOKING

The Zip HydroTap® is essential for busy lifestyles. It will revolutionise the way you cook.

We're not the only ones who think the Zip HydroTap is an essential cooking appliance, top chef Giancarlo Caldesi is a huge fan.

The Italian chef is renowned for his dedication to high quality food, and has appeared on Market Kitchen, BBC Breakfast, BBC MasterChef and Saturday Kitchen.

To learn more about the benefits of 'cooking on tap' with Giancarlo, find inspiring recipes and 'how to' videos, visit nowzipit.co.uk

**BOIL IT.
BLANCH IT.
FIZZ IT.
COOL IT.
THAW IT.
RINSE IT.**

The Zip HydroTap is an essential kitchen appliance – and not just because it provides filtered boiling, chilled or sparkling drinking water instantly – it will revolutionise the way you cook!

Zip tips:

- Plunge green beans and asparagus into chilled water after blanching to preserve the vibrancy and crunch.
- Get your frozen ingredients ready for cooking by thawing gradually with filtered chilled water.
- Rinse freshly cooked homemade ravioli to complete an Italian supper.
- Add sparkle to noodles and dumplings, paper-crispness to tempura batter and lightness to bread dough.
- Prepare eggs for breakfast, or pasta and rice for dinner – without having to wait for the kettle to boil.

ZIP RECIPE: FRITTO MISTO

To prepare the courgettes, cut out the little circle at the base of the flower to remove the stamen, as these can taste bitter. Alternatively, you can also remove the stamen by hand by gently opening out the flower. It's up to you.

Now it's time to make the batter. Use a whisk or an electric mixer to beat the egg into the flour, little by little, to make a thick paste. Next add your Zip HydroTap sparkling water to dilute the paste until you have a mixture that resembles the consistency of thick double cream. Now whisk in the salt. If any lumps remain at this stage, sieve the mixture.

You're now ready to heat the oil. You can either use a deep fat fryer or pan for this, either way you'll need the oil to reach 175°C.

While you're waiting for the oil to reach the desired temperature, dip the flowers, prawns, scallops and calamari into your plain flour and tap off the excess. Once the oil is hot, dip each ingredient into the batter and add carefully into the oil.

Don't try to cook these all at once – a few batches will do to avoid cooling the oil too much or overfilling the pan or fryer. Cook them until light golden and crisp on both sides. Drain them on some kitchen paper and arrange onto a plate, adding salt to taste and a handful of salad leaves and lemon wedges to serve.

Ingredients:

200 g prawns
200 g queen scallops
200 g calamari
6 courgette flowers

For the batter:

3 eggs
90 g plain flour
60 ml sparkling water
¼ teaspoon salt
Lemon wedges to serve

ZIP IT.
